

Bodor P3 Series all-around sheet metal fiber laser cutting machine

KEY FEATURES

- Supercharged productivity
- User-friendly operation
- Top-notch cutting quality
- Resource efficiency
- Safety measures

The Bodor P3 Series is the epitome of cutting-edge laser technology and outstanding performance.

SPECIAL PRICE

Incl installation and training
(North Island Cities)

TECHNICAL PARAMETERS

X/Y-axis positioning accuracy	±0.05mm/m
X/Y-axis repositioning accuracy	0.02mm
X/Y-axis max. linkage acceleration	4G
X/Y-axis max. linkage speed	200m/min
Working area	3048mm*1524mm

Laser Output Power- 12KW

Bodor K2 Series Entry-Level Tube Laser Cutting Machine

KEY FEATURES

- Fast cutting
- High level of safety
- Automation
- Edge collision prevention
- Cut costs, not quality

The economical choice
for precise
tube processing.

SPECIAL PRICE

Incl installation and training
(North Island Cities)

TECHNICAL PARAMETERS

Effective Round Tube Cutting Diameter	φ8-φ230mm
Effective Square Tube Cutting Diameter	□8-□230mm
Rectangular tube Edge Length	8-230mm
X/Y-axis positioning accuracy	0.05mm/m
X/Y-axis repositioning accuracy	0.03mm
X axis maximum speed	90m/min
Y axis maximum speed	60m/min

Laser Output Power- 3KW
